WHEN IT COMES TO GETTING YOUR COURIER BUSINESS ONLINE, COURIER-CONNEX DELIVERS!

In the just-in-time delivery business, your customers need to have on-demand access to your services. ***With Courier-Connex online courier software and order processing service, customers can log into your website and take care of all their delivery needs – 24/7.***

Courier-Connex web software will allow you, the smaller courier or messenger company, to provide your customers with the same services that they get from the big names in the delivery business. By simply logging into your website, your customers will be able to:

- Place and track orders online. Eliminate the need for customers to phone in orders and wait to speak with dispatch.
- Obtain instant price quotes. Why spend valuable time reviewing and pricing each order, when the Price Calculator can generate quotes with just one click?
- Enjoy the convenience of accessing waybill records and invoices on demand and downloading them directly into their accounting systems.
- Simplify the invoicing process even more by paying their bills online.
- Receive automatic delivery confirmations. Give your customers the peace of mind that comes from knowing their package reached its destination on time – without having to send a fax or type an email!
- Message dispatch to instantly connect with you in case of a last minute change to their order.
- And enjoy many more highly customizable features!

All you and your customers need to access the secure service is a PC or mobile device with an internet connection. There is no software to purchase or install. No one to train. No down time. No stress.

"You did an excellent job on this client project. In fact, it's one of the two or three best I've reviewed since this course began! You have a knack for conveying a lot of information without your copy being too "text heavy". In fact, your style is fast-paced and compelling."
